10. ADJOURN

April 2022 Electric Department Activity Report

Tree Trimming:

- Cut down 2 Trees at 402 Kennan
- Cut limbs off lines at 637 Meadowlark
- Cut limbs off lines at 420 Southwest Circle
- Cut limbs off lines at 114 S. Walnut
- Ground Stump at 402 Kennan
- Ground Stump at 230 S. Howard Burton
- Ground Stump at 702 S. Rollins-hauled dirt, seed, and strawed
- 707 S. Howard Burton limb on service drop
- Cut down and grind stumps at Jefferson/Early St.
- Cut hanging branch down at Rollins/Bruton St.
- Cut 2 trees down and ground stumps at 329 N. Rollins

Temps and New Services:

- Temp at 924 Lockport
- Temp set 513 Southgate
- Temp at 717 S. Allen
- Tag electric at 508 Ann. Ave

Street Lights:

- Fixed light at City pole-broke from storm
- Fixed light at Hickman/Clark
- Fixed light in front of Jim Butler
- Fixed light in front of High School
- Fixed light at Jason Ct.
- Fixed light on Rt. B

Underground:

-

New Poles and Anchors:

- Set new pole at 101 N. Howard Burton
- Set new pole at 402 W. Fairgrounds

Miscellaneous:

- Monthly Locates
- Moved primary phase to new pole at 701 S. Allen
- Wrecked out Southgate/Pratt pole
- Pulled up service drop at 311 W. Singleton

- Help Hubbell with getting some old poles for demonstration
- Assisted Water Dept with using digger truck to lift pump at Ivy/Orchard
- Replaced switch for North Field ball lights that wouldn't shut off
- Taped off Cable drop that was laying on the road on Head St.
- Reset a pole on N. Jefferson
- Took down D to D light and pulled pole no longer needed at 815 Rodemyre
- Got new jib rope put on little wing
- Apprentice testing
- Looked at timer for the basketball lights
- Cut service drop down at 304 Wright Ct. for Demo
- North Point Subdivision meeting with ESS
- Broken pole at the trailer court-no longer needed, wrecked out
- Put new rope and flag on flag pole on City Square

MASTER SERVICES AGREEMENT

BETWEEN

**MISSOURI PUBLIC UTILITY ALLIANCE
RESOURCE SERVICES CORPORATION**

AND

("City")

THIS MASTER SERVICES AGREEMENT is made as of this _____ day of _____, 20____ (“Effective Date”), by and between the Missouri Public Utility Alliance Resource Services Corporation (“MPUA RSC”), a 501(C)(3) entity, created and existing under the laws of the state of Missouri, and the City of _____ (“City”), a member city of the Missouri Public Utility Alliance.

1.0 PURPOSE AND CONSTRUCTION OF AGREEMENT

- 1.1 MPUA RSC and the City (herein after the “Party” or “Parties”) intend to enter into one or more agreements whereby MPUA RSC provides services to the City (each a “Project Services Agreement”). The Parties wish to establish the general terms and conditions that shall apply to all Project Services Agreements between MPUA RSC and the City. As used herein, “Agreement” means and includes this Master Services Agreement and any subsequent Project Services Agreement(s), including all exhibits and attachments thereto. In consideration of the mutual covenants, promises and consideration set forth in this Agreement and in any subsequent Project Services Agreement(s), the Parties hereto agree as follows.
- 1.2 After discussion, MPUA RSC and the City have entered into this Agreement with the intent to provide the City’s ratepayers the benefit and advantage of highly qualified services at fair and reasonable prices.
- 1.3 This agreement is not exclusive. MPUA RSC and the City both have the right to enter into and contract with other parties for the provision of the same or similar services. It is expressly understood and agreed that nothing in this Agreement shall preclude MPUA RSC from contracting with other cities or towns to provide the same or similar services. It is also expressly understood and agreed that nothing in this Agreement requires City to use, request or acquire any service(s) from MPUA RSC.
- 1.4 This Agreement does not confer any other rights not described herein.
- 1.5 Nothing contained in this Agreement shall be construed as a limitation, restriction, or prohibition on MPUA RSC or the City with respect to any agreement or arrangement either Party has heretofore entered or may enter into in the future with respect to any services.
- 1.6 The words “shall” and “will” are always mandatory and not merely permissive.

2.0 TERM AND EFFECT OF AGREEMENT

- 2.1 This Agreement shall remain in effect until terminated or until superseded by a subsequent Master Services Agreement signed by both Parties.

- 2.2 This Agreement shall govern the contractual relationship between MPUA RSC and the City whenever MPUA RSC provides services to the City under a Project Services Agreement administered by the designated MPUA RSC manager.

3.0 PREVAILING WAGE

- 3.1 Prevailing Wage: If a Project Services Agreement includes work that requires payment of prevailing wage as set forth in §§ 290.210 to 290.340, RSMo., the State of Missouri Prevailing Wage Law (the “Law”), then MPUA RSC shall pay workers prevailing wage in accordance with this Section and the Law. City shall be responsible for notification to MPUA RSC of project(s) which will be subject to prevailing wage requirements. MPUA will provide a prevailing wage affidavit to the city for each project(s) designated by the City as requiring prevailing wage.
- 3.1.1 MPUA RSC shall comply and require its subcontractors to comply with the Law, as well as 8 CSR 30-3.010 to 8 CSR 30-3.060, the Prevailing Wage Law Rules (the “Rules”); the Annual Wage Order (“Wage Order”) issued by the State of Missouri’s Department of Labor and Industrial Relations; and any applicable Annual Incremental Wage Increase (“Wage Increase”) to the Annual Wage Order. The Law, Rules, Wage Order and any Wage Increase are incorporated into and made part of this Agreement and shall be collectively referred to as the “Prevailing Wage Requirements.”
- 3.1.2 Under the Law, work that meets the definition of “construction” includes construction, reconstruction, improvement, enlargement, alteration, painting and decorating, or major repair.” 290.210(2), RSMo. “Maintenance work,” that is not subject to the Law, is defined as “the repair, but not the replacement, of existing facilities when the size, type or extent of the existing facilities is not thereby changed or increased.” 290.210(6), RSMo.
- 3.2 MPUA RSC shall pay and require its subcontractors to pay to all workers performing work under this Agreement not less than the prevailing hourly rate of wages for the class or type of work performed by the worker in accordance with the Law, Rules, Wage Order, and any applicable Wage Increase. MPUA RSC shall take whatever steps are necessary to ensure that the prevailing hourly wage rates are paid and that all workers for MPUA RSC and each of its subcontractors are paid for the class or type of work performed by the worker in accordance with the Prevailing Wage Requirements.
- 3.2.1 MPUA RSC shall maintain and require each of its subcontractors engaged in the construction of public works in performance of this Agreement to submit in a format prescribed by MPUA RSC, payroll report information indicating the worker’s name, address, social security number, occupation(s), craft(s) of every worker employed in connection

with the public work together with the number of hours worked by each worker and the actual wages paid in connection with the Project Services Agreement.

- 3.3 MPUTA RSC will make all of its records, pertinent to this Agreement and/or any Project Services Agreement with the City, open for inspection by any authorized representative of the City and the Missouri Department of Labor and Industrial Relations at any reasonable time and as often as they may be necessary and such records will not be destroyed or removed from the State of Missouri for a period of one (1) year following the completion of the public work in connection with which the records are made.

4.0 E-VERIFY

- 4.1 Pursuant to §285.530, RSMo., both MPUTA RSC and the City will comply with all state and federal laws in verifying the work eligibility status of all newly hired employees through E-Verify or any subsequent replacement program.
- 4.2 MPUTA RSC and the City hereby affirm that they do not knowingly employ any unauthorized alien, as that term is used in §285.530, RSMo.

5.0 SERVICES RENDERED

- 5.1 Services. MPUTA RSC will perform services for the City as specifically described in a Project Services Agreement, including all exhibits and attachments thereto.
- 5.2 Conflicts. In the event a Project Services Agreement conflicts with the terms of this Agreement, this Master Services Agreement shall control and supersede any conflicting provisions of a Project Services Agreement .

6.0 PAYMENT, RECORDS, AND AUDIT

- 6.1 Payment. All payments to MPUTA RSC for services satisfactorily performed pursuant to a Project Services Agreement will be made directly to MPUTA RSC and directed to the attention of the individual or organization specified in the Project Services Agreement, unless MPUTA RSC requests otherwise.
- 6.2 Method of Payment. As a condition to payment for services performed under a Project Services Agreement, MPUTA RSC shall submit properly executed invoices and any additional reports or documents required by the Project Services Agreement. All invoices, performance reports and work statements shall state MPUTA RSC's name and address and the Project Services Agreement contract number. Invoices must be signed by the designated MPUTA RSC manager, who shall verify that the invoiced services have been performed.

- 6.3 Documentation of Costs. MPUA RSC will document all actual costs in connection with the services provided under any Project Services Agreement with properly executed payrolls, time records, invoices, records of service delivery, or any other official documentation evidencing in proper detail the nature and reasonableness of such costs. Such records and documents shall be retained for a period of five (5) years after receipt of final payment under the Project Services Agreement; provided, that for any records and documents that are the subject of audit findings, those records shall be maintained for either ten (10) years following final payment or until the audit findings are resolved, whichever is longer.
- 6.4 Notice Affecting Performance. Each Party shall notify the other of any matters that could adversely affect MPUA RSC's ability or eligibility to continue to perform services under the Project Services Agreement, or the City's ability to pay for services under the Project Services Agreement and shall do so immediately after discovery of such matter(s).

7.0 MANNER OF PERFORMANCE

- 7.1 Usual Utility Practice. MPUA RSC shall provide all services according to "Usual Utility Practice," which means at a particular time, any of the practices, methods, standards and acts which, in the objective exercise of reasonable judgment in light of the facts and circumstances (including, but not limited to, the practices, methods and acts engaged in or approved by a significant portion of the municipal utility industry prior thereto) known at the time the decision was made, would have been expected to accomplish the desired result at a reasonable cost consistent with reliability and safety. Usual Utility Practice shall, at a minimum, comply with applicable national safety codes and standards. Usual Utility Practice is not intended to be limited to the optimum practice, method, or act to the exclusion of all others, but rather to be a number of possible practices, methods, or acts. In evaluating whether any matter conforms to Usual Utility Practice as used in this Agreement, the parties hereto shall take into account, among other facts, (A) the fact that MPUA RSC and the City are public bodies organized under the laws of the State of Missouri, with the statutory duties and responsibilities thereof, and (B) the intended purposes and obligations of MPUA RSC and the City under this Agreement.
- 7.2 Quality of Performance. Notwithstanding the foregoing Section 6.1, MPUA RSC shall be solely responsible for the quality and suitability of services provided under the Project Services Agreement. If during the course of the Project Services Agreement, the City determines services being provided by MPUA RSC are not satisfactory, MPUA RSC and the City, working together, will determine a corrective course of action and time period in which such action is to be taken.

8.0 CONTRACTUAL RELATIONSHIP

- 8.1 The relationship of MPUA RSC to the City by reason of this Agreement shall be that of an independent contractor, and the Parties agree that no employee of either Party shall be deemed or claimed to be an employee of the other Party for any purpose.
- 8.2 This Agreement does not authorize either Party to act as the agent or legal representative of the other Party for any purpose whatsoever. Neither Party is granted any express or implied right or authority to assume or create any obligation or responsibility on behalf of or in the name of the other Party or to bind the other Party in any manner or thing whatsoever.

9.0 GRIEVANCES BY THE CITY

- 9.1 MPUA RSC will establish a system through which the City under the Project Services Agreement may present grievances about the activities of MPUA RSC or any of MPUA RSC's employees. The system shall provide the City with an informal hearing before representatives of MPUA RSC. If the informal hearing does not produce a mutual agreement, a meeting between the City Manager, or designee, and the MPUA RSC CEO shall be held within 30 days of the request of the City Manager.

10.0 INDEMNIFICATION AND INSURANCE

- 10.1 Indemnification. To the fullest extent permitted by applicable law, each Party agrees to indemnify and hold the other Party harmless from all losses, liabilities, claims (including claims arising under federal, state or local environmental laws), costs (including reasonable legal and other fees, expenses and reasonable attorneys' fees), actions or damages of any sort whatsoever arising out of any actual or alleged property damage, bodily injury or monetary penalty resulting from negligent acts or willful misconduct, errors or omissions of that respective Party in performing its obligations under this Agreement or any Project Services Agreement; provided, however, that neither Party will be required to indemnify the other Party in the event that any such loss, damage, expense, liability or claim is the direct result of the other Party or its officers, commissioners, council members, directors, members, employees, contractors, subcontractors, agents, or attorneys. Such defense by either Party extends, without limitation, to any and all expenses whatsoever, reasonably incurred by any Indemnified Party in connection with investigating, preparing for or defending against, or providing evidence, producing documents, or taking any other reasonable action in respect of any loss, damage, expense, liability, or claim referred to in this paragraph (or action in respect thereof), whether or not resulting in any liability. The indemnity will include the aggregate amount paid in settlement of any litigation, commenced or threatened, or of any claim whatsoever as set forth herein, if such settlement is effected with the written consent of the other Party. In addition, none of the

officers, commissioners, council members, Mayor, directors, members, employees, contractors, subcontractors, agents, or attorneys of either Party shall be personally liable for the performance of that respective Party's obligations under this Agreement or any Project Services Agreement.

- 10.2 The Parties further agree that the Parties shall not be liable to each other for any indirect, incidental, consequential, punitive, multiple, exemplary damages or lost profits arising out of, due to, or in connection with the Parties' performance or nonperformance under this Agreement or any Project Services Agreement, or any of its obligations herein, whether based on contract, tort, strict liability, warranty or otherwise.

10.3 Insurance.

10.3.1 MPUA RSC will obtain and maintain at all times during the term of any Project Services Agreement the minimum insurance coverage set forth in each specific Project Services Agreement.

10.3.2 All insurance policies will be written by a fully qualified insurance company licensed to provide insurance in the state of Missouri with an A.M. Best rating of at least A-VI.

10.3.3 Prior to commencing any services hereunder, and at all times during the term of the Project Services Agreement, at the request of the City, MPUA RSC will submit satisfactory evidence to the City that such insurance is in effect and shall not be cancelled or materially altered until at least thirty (30) days prior written notice has been given to the City.

10.3.4 MPUA RSC and the City will require that all subcontractors employed by them in the performance of this Agreement will maintain Workers' Compensation and all Liability coverage as required in the Project Services Agreement.

10.3.5 MPUA RSC and the City hereby waive their respective rights of recovery and release each other from any claim for damages caused to any of their property (including buildings, personal property, vehicles, and equipment) and shall each have any insurance policies covering such properties endorsed to include waiver of subrogation.

10.3.6 MPUA RSC and the City both waive their respective rights of subrogation and the rights of subrogation of their insurers against each other as respects all Workers' Compensation claims and each shall have their policies include a provision memorializing this waiver.

11 GENERAL CONDITIONS

- 11.1 Compliance with Laws: MPUA RSC and the City will comply with all applicable laws of the United States, the state of Missouri and the City; and the rules, regulations, orders, and directives of their administrative agencies and the officers thereof. Without limiting the generality of this paragraph, MPUA RSC will specifically comply with the following requirements of this Section.
- 11.2 Licenses and Accreditation Standards: MPUA RSC will secure and maintain in full force and effect all required licenses, including all City licenses, permits, accreditation standards and similar legal authorizations and will comply with all requirements thereof.

12 ASSIGNMENT AND SUBCONTRACTING

- 12.1 MPUA RSC will not assign or subcontract any of its obligations under this Agreement or a Project Services Agreement(s) without the City's written consent, which will not unreasonably be withheld. Any subcontract made by MPUA RSC will incorporate by reference all the terms of this Agreement and the Project Services Agreement. MPUA RSC will ensure that all subcontractors comply with the obligations and requirements of the subcontract.

13 TERMINATION AND SUSPENSION

- 13.1 For Convenience: Either Party may suspend or terminate this Master Services Agreement for any reason. However, the City would remain obligated to pay MPUA RSC for all services rendered and funds expended by MPUA RSC as of the effective date of such suspension or termination.
- 13.2 If the City sells or otherwise disposes of its utility system (by lease, merger, consolidation or otherwise) prior to the termination of this Agreement or a Project Services Agreement; MPUA RSC may terminate this Agreement along with any active Project Services Agreement(s) by serving written notice thereof upon the City, and such termination shall become effective as of the effective date of the sale or other disposition of the utility system.
- 13.3 Force Majeure: Neither MPUA RSC or the City will be deemed in default nor be liable for damages arising from its failure to perform its obligations under this Agreement or any Project Services Agreement, if performance is rendered impossible or impracticable for reasons beyond such Party's reasonable control, such as, but not limited to, an act of nature; an epidemic or pandemic; war or warlike operation; civil commotion; riot; labor dispute including strike, walkout, or lockout; sabotage; or superior governmental regulation or control. If either Party is rendered wholly or partly unable to perform its material obligations under this Agreement or any Project Services Agreement for reasons described under

this subsection for a period of time exceeding thirty (30) days, then either Party may terminate this Agreement upon written notice to the other.

13.4 Loss of Funds: In the event that for any reason funds allocated to or by the City for services contracted under a Project Services Agreement are or become no longer available to the City for the purpose of compensating MPUA RSC, MPUA RSC may suspend or terminate, without recourse, MPUA RSC's obligation to render services to the City. The City would remain obligated to pay MPUA RSC for all services rendered and funds expended by MPUA RSC as of the effective date of such suspension or termination.

13.5 Notice of Suspension or Termination of this Master Services Agreement: Notice of suspension or termination of this Master Services Agreement shall be given by the Party suspending or terminating this Agreement to the other not less than thirty (30) days prior to the effective date of suspension or termination.

13.5.1 Notice of suspension or termination of a Project Services Agreement. Notice of suspension or termination of a Project Services Agreement shall be given by the City to MPUA RSC not less than sixty (60) days prior to the effective date of suspension or termination and notice of suspension or termination of a Project Services Agreement shall be given by MPUA RSC to the City not less than one hundred twenty (120) days prior to the effective dates of suspension or termination.

13.6 Actions upon Suspension or Termination: In the event of suspension or termination not the fault of MPUA RSC, MPUA RSC shall be paid for all services properly performed and all funds expended prior to termination, together with any reimbursable expenses then due.

13.7 Survival: Where any covenants, obligations, indemnities, or other provisions contained in this Agreement, or in any other instrument executed in connection with this Agreement, by its context or otherwise, evidences the intent of the Parties that such provision should survive the termination of this Agreement or the associated instrument, the provision shall survive the termination. Without limiting the generality of the foregoing, the Parties specifically acknowledge and agree that all covenants, obligations, and indemnities made in Sections 6.0, 10.1, 10.2, 10.3.5 and 10.3.6 shall survive this Agreement or any Project Services Agreement.

14 MISCELLANEOUS PROVISIONS

14.1 Amendments: Any changes, alterations, or variations to the terms of this Agreement or any Project Services Agreement(s) will not be valid unless made by formal written amendment and signed by authorized representatives of both Parties.

- 14.2 Notices: All notices to be given hereunder shall be in writing and may be given, served, or made by electronic mail, by depositing in the United States mail addressed to the party to be notified, postpaid and registered or certified with return receipt requested or by delivering in person to such person. All notices shall be sent to the following addresses:

If to MPUA RSC: Missouri Public Utility Alliance Resource Services Corporation, Inc.
Attn: Randy Norden, MPUA RSC Manager
1808 Interstate 70 Dr SW
Columbia, MO 65203
Email address: _____
Telephone: (573) 445-3279

If to City:

Attn: _____
Address: _____

Email: _____
Telephone: _____
Facsimile: _____

- 14.3 Applicable Law/Venue: This Agreement shall be construed and interpreted in accordance with the law of the state of Missouri. The venue of any action brought hereunder shall be in Boone County, Missouri.
- 14.4 Guaranteed Best Pricing: MPUA RSC represents that the Project Services Agreement will contain MPUA RSC's best pricing for all services supplied by MPUA RSC to the City as of the date of the Project Services Agreement. MPUA RSC represents that the prices provided will not be less favorable than those currently extended to any other similarly situated city for the same goods or services, in equal quantities, as part of a similar market and under similar terms, but it is understood and agreed that the prevailing wage levels will impact the ultimate prices.
- 14.5 No Implied Waiver: Either Party may, at any time, waive, solely for that Party, compliance by the other Party with any obligation, covenant or condition contained in this Agreement or any Project Services Agreement(s). No such waiver, however, shall be deemed to constitute the waiver of such obligation, covenant, or condition in any other circumstance or the waiver of any other obligation, covenant, or condition. The failure by any Party hereto from time to time to exercise such right or power provided herein shall not be construed as a

waiver by such Party to exercise such right or power at any subsequent time or against any other Party.

- 14.6 Severability: If any term or provision of this Agreement is determined by a court of competent jurisdiction to be invalid or unenforceable, then the remainder of this Agreement shall not be affected thereby, and each term and provision of this Agreement shall be valid and enforceable to the fullest extent permitted by law.
- 14.7 Entire Agreement: This Agreement including all appendices, exhibits and Project Services Agreement(s) executed in connection with this Agreement constitute the entire Master Services Agreement between the Parties. No verbal agreement or conversation between any officer, agent, associate, or employee of either the City or of MPUA RSC shall affect or modify any of the terms or obligations contained in this Agreement. This Agreement supersedes any and all previous agreements, whether written or oral, between the Parties relating to the subject matter hereof. Further, in the event of conflict between this Agreement and any appendices, exhibits or Project Services Agreement(s); this Agreement shall control.
- 14.8 Mutual Agreement: The Parties acknowledge that this Agreement is entered into by mutual agreement of the Parties, that they have had the opportunity to have this Agreement reviewed by their respective legal counsel, and that the terms and conditions of this Agreement are not to be construed against any Party on the basis of such Party's draftsmanship thereof.
- 14.9 Contract Execution: This Agreement may be executed in one or more counterparts, each of which will be deemed an original copy of this Agreement and all of which, when taken together, will be deemed to constitute one and the same Agreement. This Agreement shall be effective upon the execution of counterparts by both Parties, notwithstanding that both Parties may not sign the same counterpart. The Parties' signatures transmitted by facsimile or by other electronic means shall be proof of the execution of this Agreement and shall be acceptable in a court of law.

IN WITNESS WHEREOF, the Parties have executed this Agreement by having their representatives affix their signatures below.

BILL NO. _____

ORDINANCE NO. _____

**AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF _____,
MISSOURI, AUTHORIZING THE PRESIDENT OF THE BOARD OF PUBLIC
WORKS TO SIGN AN MPUA MUTUAL AID AGREEMENT.**

**BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF _____,
MISSOURI AS FOLLOWS:**

SECTION 1.

The City Council of the City of _____, Missouri hereby authorizes the President of the Board of Public Works to sign an MPUA Mutual Aid Program Agreement by and between the City of _____ and the Missouri Public Utility Alliance, a copy of which is attached hereto.

SECTION 2.

This ordinance shall be in full force and effect from an after its date of passage and approval.

PASSED AND APPROVED this _____ day of _____, 20____.

ATTEST:

_____, City Clerk

ORDINANCE NO _____

CITY OF _____, MISSOURI

AN ORDINANCE AMENDING SECTION _____ (COMPETITIVE BIDDING REQUIRED) OF THE _____ CODE OF ORDINANCES BY WAIVING THE REQUIREMENT OF COMPETITIVE BIDDING FOR SERVICES RENDERED BY THE MISSOURI PUBLIC UTILITY ALLIANCE RESOURCE SERVICES CORPORATION ("MPUA RSC").

WHEREAS, the State of Missouri has granted municipalities authority to enact ordinances necessary to carry into effect the powers granted the municipality, but such ordinances may in no event conflict with state law.

WHEREAS, the City owns and/or operates, electric, water, wastewater, stormwater, natural gas, telecommunications and broadband utilities; and

WHEREAS, the City is a member of the Missouri Joint Municipal Electric Utility Commission, the Municipal Gas Commission of Missouri, or the Missouri Association of Municipal Utilities (collectively the Missouri Public Utility Alliance ("MPUA")); and

WHEREAS the MPUA RSC is a 501(c)(3) non-profit created specifically to provide member approved services to the municipal utilities which are members of MPUA. The MPUA RSC leverages the staff expertise of the MPUA and other partners to assist municipal electric, wastewater, natural gas, water, stormwater, telecommunication and broadband utilities in Missouri and surrounding areas. MPUA RSC and the member municipalities collaborate across utility sectors to develop broader more affordable services as a result of the economies of size it affords its members; and

WHEREAS, the MPUA RSC represents that all services to be provided to the City will be at the lowest and best pricing available to MPUA RSC and that the prices provided will not be less favorable than those extended to any other similarly situated city for the same goods or services, in equal quantities, as part of a similar market and under similar terms, but it is understood and agreed that the prevailing wage levels will impact the ultimate prices; and

WHEREAS, the MPUA RSC provides the requisite expertise for utility operations, efficiency and compliance utilizing existing and new technologies in the most affordable means available; and

WHEREAS, the City desires to waive competitive bidding requirements solely with regard to purchases or contracts for supplies, materials, equipment, services, or improvements offered or provided by MPUA RSC; and

WHEREAS, it is in the City's best interest to fully utilize the benefits afforded the city members of MPUA and to fully utilize the services provided by MPUA RSC.

NOW THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF _____, MISSOURI, THAT:

Section _____. The Code of Ordinances, Section _____, is hereby amended to read as follows:

The City hereby incorporates all of the recitals above into this Ordinance as if fully set forth herein.

Notwithstanding any other provision of the Code of Ordinances, all purchases or contracts for supplies, materials, equipment, services, or improvements, creating or imposing an obligation or liability on the part of the City, may be provided, or rendered, by MPUA RSC without the need for the submission of a Request for Proposals or similar competitive bidding requirements.

If any section, part, or provision of this Ordinance is declared unconstitutional or invalid by a court of competent jurisdiction, then it is expressly provided and it is the intention of the City Council in passing this Ordinance that its parts shall be severable and all other parts of this Ordinance shall not be affected thereby, and they shall remain in full force and effect.

This Ordinance shall take effect immediately upon its passage and publication according to law.

READ, CONSIDERED, PASSED AND APPROVED at a regular meeting of the City Council of _____, Missouri, at which a quorum was present, and which was held on the _____ day of _____, 20__.

- Cleaned equipment
- Swept streets

- Lowered inlet on Bruton, and reset culvert to try and help drainage problem by 330 s. Allen
- Cleaned up pile of recycling by the recycle bin
- Hauled off pile of dirt and rock at bi-centennial park
- Hauled off debris pile at the street dept. lot
- Dug out and set 3 sections of sidewalk to make a dumpster pad in the alley downtown
- Laid out and painted 3 handicap parking spots downtown
- Repaired hydraulic leak on dump truck #77
- Hauled off dirt pile at the cemetery
- Talked with Tony Stewert about installing culvert on Hickman st.
- Talked with Kevin Jennings about replacing sidewalks
- Dug out and cut off end of pipe at Columbia and Barnes that was damaged
- Flushed culverts on Collier, Coulter, and Green st
- Worked on MIRMA vehicle and jobsite inspections
- Called out to repair stop sign at Lakeview and Columbia that had blown down on 4/23/2022 – Deme
- Spent several days tearing out sidewalk, forming and pouring about 220ft of new sidewalk along Railroad between Collier and Jenkins
- Watched 2 MIRMA safety videos – Blood born pathogens, work zone safety

Due to continuous steel and raw material pricing fluctuations, all pricing provided on this quote is valid for 120 days from date of issuance. After the initial 120 days, pricing is subject to increase but shall not exceed 5% from the initial quoted price. Beyond 240 days from the initial date of issuance, pricing is subject to rebid and negotiation.

This quote is subject to availability of steel at the time of the order, due to unprecedented shortages in the industry. Current lead times on steel deliveries are 16-20 weeks from the time the steel order is placed with the manufacturer; if material is available. FWRCP and Contractor will have to stay in close communications throughout the process of securing the product. FWRCP will not be responsible for delays or cost overruns due to Industry wide steel shortage.

PRICE INCLUDED DELIVERY

All applicable Federal, State and Local taxes will be added to these prices.

Sincerely,

Accepted by:

**Activity Report
Water Department
April 2022**

Plant/Distribution Water

- Monthly report
- Monthly work orders
- Monthly locates
- Excavate and install new water service on South Allen St. for new construction
- Check leak on E. Barnes St. for customer, leak detector was indicated.
- Assist customer with hooking up water service on 415 S. Allen St.
- Install new water service on Lockport for new construction.
- Distribution system testing, quality water throughout all portions of town.
- Install new service for new construction on South Gate.
- Meeting with B & W on water plant project upgrade.
- Martin General Contracting installed new ventilation system inside of the filter gallery.
- Work on bid for North Pointe Subdivision
- Pre-construction meeting with ESS for North Pointe subdivision.
- Meeting with B&W and Martin general contracting on lime slaker problems.
- Assist parks and rec with replacing old valves at the city pool.
- Worked on slaker at the water plant.
- Replaced multiple key valves throughout the distribution system.

Wastewater Collection System & Lagoons

- Pumping water from NE & NW to farmer's basins for irrigation system.
- Meeting with Bartlett & West on project update.
- Dodson & Gibbs finished running piping up to the new pump house at NE lagoon system.
- Fischer Grading made improving progress on the two basins at the NE lagoon system.
- Jetted sewer main on Doty St. for a possible back up.
- Ran the sewer camera down through sewer main on E. Sims St. to inspect pipe.
- Assisted plumber with sewer tap on S. Allen St.
- Ran camera and jetted sewer main in the alley behind Jenkins St.
- Met with several customers on sewer complains from adjoining properties.
- Met with property owner to look discuss possible sewer options for new construction.
- Checked on demo properties for sewer clean out inspections for infiltration.
- Assisted plumber with sewer tap and capping of old sewer in the alley behind Jenkins St.
- Assisted Hubbell with sewer problem on their 6" main.
- Discussed project updates with all involved farmers on possible delays in equipment.
- Mapping out temporary operation plans for this irrigation season with not all equipment in.

CENTRALIA PWS

Public Water System ID Number: MO3010152

2021 Annual Water Quality Report

(Consumer Confidence Report)

This report is intended to provide you with important information about your drinking water and the efforts made to provide safe drinking water.

Atención!

Este informe contiene información muy importante. Tradúscalo o pregúntele a alguien que lo entienda bien.

[Translated: This report contains very important information. Translate or ask someone who understands this very well.]

What is the source of my water?

The sources of drinking water (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs, and groundwater wells. As water travels over the surface of the land or through the ground, it dissolves naturally-occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity.

Our water comes from the following source(s):

Source Name	Type
WELL # 3	GROUND WATER
WELL # 4	GROUND WATER
WELL # 6	GROUND WATER

Source Water Assessment

The Department of Natural Resources conducted a source water assessment to determine the susceptibility of our water source to potential contaminants. This process involved the establishment of source water area delineations for each well or surface water intake and then a contaminant inventory was performed within those delineated areas to assess potential threats to each source. Assessment maps and summary information sheets are available on the internet at <https://drinkingwater.missouri.edu/>. The Missouri Source Water Protection and Assessment maps and information sheets provide a foundation upon which a more comprehensive source water protection plan can be developed.

Why are there contaminants in my water?

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's Safe Drinking Water Hotline (800-426-4791).

Contaminants that may be present in source water include:

- A. Microbial contaminants, such as viruses and bacteria, which may come from sewage treatment plants, septic systems, agricultural livestock operations, and wildlife.
- B. Inorganic contaminants, such as salts and metals, which can be naturally-occurring or result from urban stormwater runoff, industrial, or domestic wastewater discharges, oil and gas production, mining, or farming.
- C. Pesticides and herbicides, which may come from a variety of sources such as agriculture, urban stormwater runoff, and residential uses.
- D. Organic chemical contaminants, including synthetic and volatile organic chemicals, which are byproducts of industrial processes and petroleum production, and can also come from gas stations, urban stormwater runoff, and septic systems.
- E. Radioactive contaminants, which can be naturally-occurring or be the result of oil and gas production and mining activities.

In order to ensure that tap water is safe to drink, the Department of Natural Resources prescribes regulations which limit the amount of certain contaminants in water provided by public water systems. Department of Health regulations establish limits for contaminants in bottled water which must provide the same protection for public health.

Is our water system meeting other rules that govern our operations?

The Missouri Department of Natural Resources regulates our water system and requires us to test our water on a regular basis to ensure its safety. Our system has been assigned the identification number MO3010152 for the purposes of tracking our test results. Last year, we tested for a variety of contaminants. The detectable results of these tests are on the following pages of this report. Any violations of state requirements or standards will be further explained later in this report.

If you would like to observe the decision-making process that affect drinking water quality or if you have any further questions about your drinking water report, please call us at **573-682-2139** to inquire about scheduled meetings or contact persons.

Do I need to take any special precautions?

Some people may be more vulnerable to contaminants in drinking water than the general population. Immunocompromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by *Cryptosporidium* and other microbial contaminants are available from the Safe Drinking Water Hotline (800-426-4791).

Terms and Abbreviations

Population: 4027. This is the equivalent residential population served including non-billing paying customers.

90th percentile: For Lead and Copper testing. 10% of test results are above this level and 90% are below this level.

AL: Action Level, or the concentration of a contaminant which, when exceeded, triggers treatment or other requirements which a water system must follow.

HAAS: Haloacetic Acids (mono-, di- and tri-chloroacetic acid, and mono- and di-bromoacetic acid) as a group.

LRAA: Locational Running Annual Average, or the locational average of sample analytical results for samples taken during the previous four calendar quarters.

MCLG: Maximum Contaminant Level Goal, or the level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.

MCL: Maximum Contaminant Level, or the highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.

n/a: not applicable.

nd: not detectable at testing limits.

NTU: Nephelometric Turbidity Unit, used to measure cloudiness in drinking water.

ppb: parts per billion or micrograms per liter.

ppm: parts per million or milligrams per liter.

RAA: Running Annual Average, or the average of sample analytical results for samples taken during the previous four calendar quarters.

Range of Results: Shows the lowest and highest levels found during a testing period, if only one sample was taken, then this number equals the Highest Test Result or Highest Value.

SMCL: Secondary Maximum Contaminant Level, or the secondary standards that are non-enforceable guidelines for contaminants and may cause cosmetic effects (such as skin or tooth discoloration) or aesthetic effects (such as taste, odor or color) in drinking water. EPA recommends these standards but does not require water systems to comply.

TT: Treatment Technique, or a required process intended to reduce the level of a contaminant in drinking water.

TTHM: Total Trihalomethanes (chloroform, bromodichloromethane, dibromochloromethane, and bromoform) as a group.

MISSOURI
DEPARTMENT OF
NATURAL RESOURCES

How might I become actively involved?

CENTRALIA PWS

Public Water System ID Number: MO3010152

2021 Annual Water Quality Report

(Consumer Confidence Report)

Contaminants Report

CENTRALIA PWS will provide a printed hard copy of the CCR upon request. To request a copy of this report to be mailed, please call us at **573-682-2139**. The CCR can also be found on the internet at www.dnr.mo.gov/ccr/MO3010152.pdf.

The state has reduced monitoring requirements for certain contaminants to less often than once per year because the concentrations of these contaminants are not expected to vary significantly from year to year. Records with a sample year more than one year old are still considered representative. No data older than 5 years need be included. If more than one sample is collected during the monitoring period, the Range of Sampled Results will show the lowest and highest tested results. The Highest Test Result, Highest LRAA, or Highest Value must be below the maximum contaminant level (MCL) or the contaminant has exceeded the level of health based standards and a violation is issued to the water system.

Regulated Contaminants

Regulated Contaminants	Collection Date	Highest Test Result	Range of Sampled Result(s) (low - high)	Unit	MCL	MCLG	Typical Source
BARIUM	1/11/2021	0.00482	0.00482	ppm	2	2	Discharge of drilling wastes; Discharge from metal refineries; Erosion of natural deposits
FLUORIDE	1/11/2021	1.29	1.29	ppm	4	4	Natural deposits; Water additive which promotes strong teeth
NITRATE-NITRITE	1/11/2021	0.218	0.218	ppm	10	10	Runoff from fertilizer use; Leaching from septic tanks, sewage; Erosion of natural deposits

Disinfection Byproducts	Sample Point	Monitoring Period	Highest LRAA	Range of Sampled Result(s) (low - high)	Unit	MCL	MCLG	Typical Source
TTHM	DBPDUAL-01	2021	1	1.13 - 1.13	ppb	80	0	Byproduct of drinking water disinfection

Lead and Copper	Date	90th Percentile: 90% of your water utility levels were less than	Range of Sampled Results (low - high)	Unit	AL	Sites Over AL	Typical Source
COPPER	2017 - 2019	0.0901	0.0111 - 0.104	ppm	1.3	0	Corrosion of household plumbing systems
LEAD	2017 - 2019	1.34	0 - 7.9	ppb	15	0	Corrosion of household plumbing systems

Violations and Health Effects Information

During the 2021 calendar year, we had the below noted violation(s) of drinking water regulations.

Compliance Period	Analyte	Type
No Violations Occurred in the Calendar Year of 2021		

Special Lead and Copper Notice:

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. CENTRALIA PWS is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline (800-426-4791) or at <http://water.epa.gov/drink/info/lead/index.cfm>.

All contaminant sample results from past and present compliance monitoring are available online at the Missouri DNR Drinking Water Watch website at www.dnr.mo.gov/DWWW/. To see the Lead and Copper results, enter your water system's name in the box titled Find Water Systems at the bottom of the page. On the next screen, click on the [Water System Number](#). At the top of the next page, under the Help column, click on Other Chemical Results by Analyte. Scroll down to Lead and click the blue Analyte Code (1030). A Sample Collection Date range may need to be entered. The Lead and Copper locations will be displayed under the heading Sample Comments. Scroll to find your location and click on the Sample No. for results. If you assisted the water system in taking a Lead and Copper sample but cannot find your location on the list, please contact CENTRALIA PWS for your results.

Optional Monitoring (not required by EPA)

Optional Contaminants

Monitoring is not required for optional contaminants.

Secondary Contaminants	Collection Date	Your Water System Highest Sampled Result	Range of Sampled Result(s) (low - high)	Unit	SMCL
ALKALINITY, CACO3 STABILITY	1/11/2021	222	222	MG/L	
ALUMINUM	1/11/2021	0.0103	0.0103	MG/L	0.05
CALCIUM	1/11/2021	24.6	24.6	MG/L	
CHLORIDE	1/11/2021	61.4	61.4	MG/L	250
HARDNESS, CARBONATE	1/11/2021	185	185	MG/L	
MAGNESIUM	1/11/2021	30.1	30.1	MG/L	
PH	1/11/2021	8.31	8.31	PH	8.5
POTASSIUM	1/11/2021	10.7	10.7	MG/L	
SODIUM	1/11/2021	76.2	76.2	MG/L	
SULFATE	1/11/2021	72.9	72.9	MG/L	250
TDS	1/11/2021	363	363	MG/L	500
ZINC	1/11/2021	0.00189	0.00189	MG/L	

Secondary standards are non-enforceable guidelines for contaminants that may cause cosmetic effects (such as skin or tooth discoloration) or aesthetic effects (such as taste, odor or color) in drinking water. EPA recommends these standards but does not require water systems to comply.

CHANGE ORDER NO. 3
CENTRALIA WASTEWATER SYSTEM IMPROVEMENTS – PART 3
CITY OF CENTRALIA, MISSOURI

Owner: City of Centralia, Missouri
Contractor: Fischer Grading LLC

Engineer's Project No. 18921.012

The Contract Documents are modified as follows upon execution of this Change Order:
Description of Work:

This Change Order #3 for the Part 3 Contractor addressed a date extension to extend the substantial completion date as well as the final completion date from the previous change order.

The substantial completion deadline was previously approved to be May 6th, 2022. This change order extends the previously approved substantial completion deadline by 75 consecutive calendar days to July 20th, 2022. Starting July 21st, 2022, the Contractor shall pay the Owner liquated damages in the sum of \$500 for each consecutive calendar day after the substantial completion deadline mentioned above. Substantial completion for Part 3 is defined in the contract agreement document 00520-1.

The final completion deadline was previously approved to be June 5th, 2022. This change order extends the previously approved final completion deadline by 75 consecutive calendar days to August 19th, 2022. Starting August 20th, 2022, in addition to the liquidated damages owed after the substantial completion date, the Contractor shall pay the Owner liquated damages in the sum of \$500 for each consecutive calendar day after the final completion deadline mentioned above.

Change in Contract Times:

Original Contract Completion Days	190
Previously Approved Contract Days	277
Increase (Decrease) in Contract Days	75
Revised Contract Completion Days	352

Change in Contract Price:

Original Contract Price	\$827,075.00
Price for this Change Order	\$0.00
Previously Approved Change Orders	\$0
To Date Contract Price change	\$0.00
Revised Contract Price	\$827,075.00

Authorizing Signatures:

ENGINEER _____ Date _____

CONTRACTOR _____ Date _____

OWNER _____ Date _____

Change order is subject to all provisions of the contract documents and is not in effect unless signed by all parties indicated.

When the Revised Contract Amount is in excess of the Original Contract Amount by 20% the PERFORMANCE BOND and PAYMENT BOND are to be amended by the PRINCIPAL and SURETY.

Subject: Activity Report

ACTIVITY REPORT
APRIL 2022

- Meeting with Martin Construction, Velodyne on existing slaker and continuing issues
- Met with representatives from Chemco Equipment on their brand of slaker and possibilities of it working again in our situation
- Multiple meetings with Bartlett & West, Martin Construction, and Velodyne on the slaker and the long (or even short term) ability to keep the machine running properly. Timeline was prepared of the slaker, from installation to present day, with issues listed, and Heather issued letter to Martin on terms moving forward.
- Meeting with Martins, Vandevanter, and Bartlett on temporary pumping to farmers for pivots. Discussed with Bob Benoit and Tyler Rhodes
- Meeting with Fischer on deadline and progress of work preformed
- Talked with several local farmers on the contract on the Douglass Farm and what is expected moving towards bid time
- Met with Curt Kelly on fencing at landfill site and gates
- Talked with District 10 water on territorial rights at old saw mill
- Discussed utilities at North Pointe Subdivision with ESS for pre-construction phase. Discussed road material for the subdivision with Civil Group engineers and Darren's lawyer
- Checked parking spots at Baptist Church to change to handicap spots with Harold Deckerd
- Showed Harold around various projects and issues that the city are dealing with at this time and future jobs for the summer
- Met with Boone Electric on easements and contracts for wastewater projects
- Met with Consolidated Electric on needs for the Douglass Farm
- Met with Audrain County Road District on repairs at Tim Lewis Farm
- Compiled water loss reports for DNR
- Met with Catholic Church on driveway and sidewalk repairs
- Attended MPUA roundtable with Heather and Matt Fadler
- Ordered dump truck and stump grinder
- Met with Pipeview America on gas line thru sewer main at Christian Church
- Met with Steve Alberts on issue with Daynes pick up dumpsters
- Met with Steven Chancellor on paving little parking lot by Chance Elementary
- Went over street paving with Mitchell Christensen and bids
- Assisted Park Department with pool issues on piping and camera work
- Various setback checks on sheds, houses, fences, and trees
- Attended weekly departmental meetings
- Attended council meetings
