

29 April 2020

Honorable Mayor Kaumo
City of Rock Springs
212 D Street
Rock Springs, WY 82901

Dear Mayor Kaumo and Rock Springs City Council Members,

On behalf of the Rock Springs Historical Museum, I would like to ask for permission to apply for a National Park Service (NPS) Main Street Facade Improvement Grant.

There are multiple areas on the Rock Springs Historical Museum building that are in need of repair and/or replacement. The grant does have a cap of \$25,000 and grantees are required to provide a match of at least 30% of the total project cost. There are several spots on the building where the stonework is in dire need of repair, most notable the balcony and surrounding stonework over the B street entrance. This grant, if received, would go towards stabilizing those areas.

You can read more about the grant with the attached packet.

Please feel free to contact me with questions or ideas about this or any other grant or history related project.

Thank you for your consideration.

Respectfully,

Jennifer Messer
Rock Springs Historical Museum Coordinator

National Park Service Main Street Façade Improvement Grant Program

The National Main Street Center, Inc. (NMSC) is pleased to offer the National Park Service (NPS) Main Street Façade Improvement Grant Program, supported through a grant from the Historic Revitalization Subgrant Program as administered by the National Park Service, Department of Interior.

Starting in 2020, the NPS Main Street Façade Improvement Grant Program will provide façade improvement grants to building or business owners in 12 rural Main Street America™ communities within the boundaries of four Main Street America Coordinating Programs (three communities per state/region).

Building/business owners will use these grants to support highly visible improvements to buildings and storefronts. This program is intended to provide local Main Street America programs with an additional “tool” in their economic vitality tool-box and help stimulate local economies.

Funding and grant administration will be issued from NMSC. The four Coordinating Programs in the four selected states will be asked to help with design review, community selection, and project vetting. Project scope and design review will be led by NMSC, and when reviews for compliance with Section 106 of the National Historic Preservation Act (1966) and the National Environmental Policy Act (NEPA) are required, NPS will conduct reviews for compliance.

Before submitting your application, please review the program details and materials on the [NPS Main Street Façade Improvement Grant Program homepage](#) including Frequently Asked Questions, and examples of the program forms and documents.

This project is supported through a grant from the Historic Revitalization Subgrant Program as administered by the National Park Service, Department of Interior.

HOW TO PHOTOGRAPH A BUILDING

The design team is passionate about providing Texas Main Street cities with high quality images and ideas on how to revitalize historic buildings and downtown. They can work a lot of magic in Photoshop, but none of that magic can happen without a good photograph to start with. **The Design Team relies on you, the Main Street manager, to provide quality photos, so they can provide quality assistance.** This guide will help you do just that.

EQUIPMENT:

There is no need for a fancy camera. Your iPhone or other smart device will work to photograph a building.

RESOLUTION:

Today, most phones and cameras take decent quality photos when it comes to resolution. There is no need to change the presets before photographing. When a photo is emailed from a device, **always send in the actual size, so that the photo is large enough for the Design Team to work with.**

TIME OF DAY:

The biggest factor that determines whether your photo will be good or not is the time of day. Too much shadow or too much glare can make a photo difficult to work with. The best time to take photos in a downtown situation is typically during the middle of the day, when the sun is high in the sky and there are minimal shadows. Look at the images below. In photo A on the left, you can see the beautiful blue sky, but the building is dark and the details are muddy. In photo B on the right, the sky is washed out, but the building details are crisp. Send in photo B on the right side. Design Staff can add a blue sky, **but the building features must be clear to start with.**

Bad

Good

ANGLE:

The most important picture to send Design Staff is an overall photograph showing the entire building. If the building has more than one side visible, try to capture the photo at the corner, so that both sides can be seen as shown in the Photo #1. Straight on pictures of the front facade also work well (#2). For multiple buildings, take the photo at an angle (#3). If the building is too large, take multiple pictures of the facade (#4a & #4b). Make sure to stay the same distance away from the building and move laterally to take pictures like the example below. Staff can easily make this one picture in Photoshop.

BUILDING VISIBILITY:

It's ok for cars or trees to block a small portion of the building. These elements make the picture automatically look more alive. However, make sure objects are not obscuring large portions of the building. For example, in photo #3, a few cars on the street blocks the lower portion of the streetscape, but a majority of the buildings can be seen. In photo #4, half of the building is blocked with a dumpster. Boards are also covering portions of the building. It's extremely difficult to recreate what is hidden and determine if historic elements are in place.

DETAILS:

Detail photographs are not always necessary, but they can be useful when you are trying to point out problem areas or architectural features. Detail shots help us understand what maintenance information we need to include in the design report. See Image #6 for examples. The more detail shots you include, the more we know about a building.

Acceptance of this grant is indication of your willingness to conduct your project in conformance with the following terms and conditions of this agreement (the "Agreement"):

1. Grant and Budget. The National Main Street Center, Inc. (the "Grantor") has awarded a grant to [Contact/Organization/Business] (the "Grantee") in the amount of \$XX.XX for the purposes stated in Section 2 (the "Grant").

2. Use of Grant Funds. Grantee shall use the Grant solely for the following purposes (the "Grant Project"):

Project Scope of Work

Any changes in the purposes of the Grant must be approved by Grantor in advance, in writing. Grantee should contact the National Main Street Center, Inc. (by email to bbatts@savingplaces.org or by calling 312.610.5606) to discuss any proposed changes to the Grant Project.

Unless otherwise agreed upon in writing by Grantor, Grant funds must be used to achieve the Grant Project as described above and as otherwise outlined in the Grantee's underlying NPS Main Street Façade Improvement Grant Program application that was submitted for the Grant (the "Application") and the work, services, and deliverables described therein, incorporated by reference into this Agreement.

3. Funding Documentation. Grantee shall deliver to Grantor all of the following prior to Grantor disbursing any grant installment:

- e) A Completion Report with project completion milestones demonstrating % completion (see form attached as Exhibit A) prior to the second and third installments;
- f) Contractor lien waivers for work completed prior to the second and third installments and with the final Completion Report.

The third and final installment of 20% of the Grant (\$XX.XX) will be paid within thirty (30) days after the Grantee has submitted a 100% COMPLETION REPORT which demonstrates the Grant Project is 100% complete per the Completion Schedule. In order for the Grant Project to be determined to be 100% complete, the Grantee must:

- i) Demonstrate evidence that the Grant Project property is listed in the National Register of Historic Places (NRHP) as an individual listing or as a contributing structure to a district that is listed in the NRHP; and

Grantee will have twenty-four (24) months after receipt of the first installment (the "Completion Date") to complete the Grant Project.

- b) If the Grantee fails to complete at least 50% of the Grant Project by the Completion Date, Grantor and NPS will determine in their sole discretion whether to fund any portion of the second or third installments of the Grant and/or extend the Completion Date deadline.
- c) For those Grant Projects located in properties not currently listed in the NRHP, Grantees must provide a draft National Register nomination or letter of inquiry and determination of eligibility for listing from the State Historic Preservation Office (SHPO) in order to receive the second installment of the Grant.

Project Sign Guidance

Font sizes are given at Full Size

This document is intended to assist grant recipients of Historic Preservation Fund grants in designing and printing public notification signage.

All grant recipients of Historic Preservation Funds must create public notification of the project in the form of a project sign, website posting, and provide proper credit for announcements and publications. A draft of signage/notification must be submitted by to NPS in advance for review. Photo documentation of the sign/notification must be submitted to NPS with the first Performance Report. The cost of fabricating and erecting notification is an eligible cost for this grant.

If a grantee wishes to use the NPS Arrowhead, they must follow the design and format above exactly without deviation. The dimensions for the provided template are 48 inches by 36 inches. Signage must use described font styles and sizes, header and footer, and placement of agency logo and grant program name. Additional information identifying the grantee or recognizing other contributors is encouraged and permissible in the areas outlined for logos or text credits. Logos the grantee wishes to add should be at the lower left third of the sign. The rest of the lower third may be used as a space to recognize partners, other funders, donors, or other companies or organizations supporting the project, like an architectural or engineering firm. The sign template provided is designed to be printed on corrugated plastic, aluminum, or vinyl.

If a grantee does not wish to use the NPS Arrowhead, then this format is not required; however, the following statement must be included: "This project is being supported in part by a Historic Preservation Fund grant administered by the National Park Service, Department of the Interior."

PRESERVATION COVENANT

INTRODUCTION. This preservation covenant is made the **X** day of **MONTH, YEAR**, between [Property Owner] as GRANTOR of a preservation covenant (hereafter referred to as the “Grantor”), and the **State Historic Preservation Office/Other**, as GRANTEE of the preservation covenant (hereafter referred to as the “Grantee”). This preservation covenant is entered under **State Law/Regulation** for the purpose of preserving the **Name of Subject Property**, a building that is important culturally, historically, and/or architecturally.

1. The Subject Property. This agreement creates a preservation covenant in real estate legally described in Exhibit A. The subject property is the site of the **Name of Subject Property**, located at **Street Address, City, County, & State** (hereafter referred to as the “Subject Property”).

2. Grant of preservation covenant. In consideration of the sum of \$**XXXX.XX** received in grant-in-aid financial assistance from the National Park Service of the United States Department of the Interior, the Grantor hereby grants to the Grantee a preservation covenant in the Subject Property for the purpose of assuring preservation of the **Subject Property**.

3. Covenant required for Federal grant. This preservation covenant is granted as a condition of the eligibility of the Grantor for the financial assistance from the National Park Service of the United States Department of the Interior appropriated from the Historic Revitalization Subgrant Program (HRSP).

4. Conditions of covenant:

a. Duration. This preservation covenant is granted for a period of five (5) years commencing on the date when it is filed with the **County** County Recorder, in the State of **STATE**, in the United States of America.

*b. Documentation of condition of the **Name of Subject Property** at time of grant of this covenant.* In order to make more certain the full extent of Grantor’s obligations and the restrictions on the Subject Property, and in order to document the nature and condition of the Subject Property, a list of character-defining materials, features, and spaces is incorporated as Exhibit “B” at the end of this agreement. To complement Exhibit “B”, Grantor has compiled a photographic record, and electronic image files saved as high-resolution images, and a keyed location map. The Grantor agrees that the nature and condition of the Subject Property on the date of execution of this covenant is accurately documented by the photographic record, which shall be maintained for the life of this covenant in the Grantee’s preservation covenant file for the Subject Property.

c. Duty to maintain the Subject Property. The Grantor agrees to assume the cost of continued maintenance and repair of the Subject Property so as to preserve the architectural, historical, and/or archeological integrity of the Subject Property and its materials to protect those qualities that made the Subject Property eligible for listing in the National Register of Historic Places (or a Subject Property contributing to the significance of a National Register listed Historic District) throughout the effective date of this covenant.

d. Restrictions on activities that would affect historically significant components of the Subject Property. The Grantor agrees that no demolition, construction, alteration, remodeling, or any other activity shall be undertaken or permitted to be undertaken on the Subject Property which would affect historically significant exterior features identified as significant in Exhibit “B.” Exterior construction materials, architectural details, form, fenestration, scale, and mass should not be adversely affected nor the structural soundness or setting altered without prior written permission of the Grantee affirming that such reconstruction, repair, refinishing, rehabilitation,

preservation, or restoration will meet The *Secretary of the Interior's Standards for the Treatment of Historic Properties* (hereinafter referred to as the "Standards").

e. Restrictions on activities that would affect archeological resources. The Grantor agrees that no ground disturbing activity shall be undertaken or permitted to be undertaken on the Subject Property which would affect historically significant archeological resources identified in Exhibit "B" without prior written permission of the Grantee affirming that such work will meet The Secretary of the Interior's applicable "*Standards for Archeology and Historic Preservation*".

f. Maintenance of recovered materials. The Grantor agrees to ensure that any data and material recovered will be placed in a repository that will care for the data in the manner prescribed in the applicable *Standards for Archeology and Historic Preservation* or will comply with the requirements of the Native American Graves Protection and Repatriation Act, and with 36 CFR 79 and 43 CFR 10.

h. Right to inspect. The Grantor agrees that the Grantee, its employees, agents and designees shall have the right to inspect the Subject Property at all reasonable times, with advance written notice to Grantor, in order to ascertain whether the conditions of this preservation covenant agreement are being observed. However, in the case of any natural or man-made disaster or imminent endangerment to the Subject Property the covenant holder shall be granted access to the Subject Property with no prior notice.

i. Anti-discrimination. The Grantor agrees to comply with Title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d), the Americans with Disabilities Act (42 U.S.C. 12204), and with Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794). These laws prohibit discrimination on the basis of race, religion, national origin, or disability.

j. Covenant shall run with the land; conditions on conveyance. This preservation covenant shall run with the land and be binding on the Grantor, its successors, and assigns. The Grantor agrees to insert an appropriate reference to this preservation covenant in any deed or other legal instrument by which it divests itself in part or in whole of either the fee simple title or other lesser estate in the Subject Property, the Subject Property, or any part thereof.

k. Casualty Damage or Destruction. In the event that the Subject Property or any part of it shall be damaged or destroyed by fire, flood, windstorm, earth movement, or other casualty, the Grantor shall notify the Grantee in writing within 14 calendar days of the damage or destruction, such notification including what, if any, emergency work has already been completed. No repairs or reconstruction of any type, other than temporary emergency work to prevent further damage to the Subject Property and to protect public safety, shall be undertaken by the Grantor without the Grantee's prior written approval indicating that the proposed work will meet the Standards. The Grantee shall give its written approval, if any, of any proposed work within 60 days of receiving the request from the Grantor. If after reviewing the condition of the Subject Property, the Grantee determines that the features, materials, appearance, workmanship, and environment (or setting) which made the Subject Property eligible for listing in the National Register of Historic Places have been lost or so damaged that its continued National Register listing is in question, the Grantee will notify the Keeper of the National Register (or the SHPO if the Grantee is not the State) in writing of the loss. The Keeper of the National Register will evaluate the findings and notify the Grantee in writing of any decision to remove the Subject Property from the National Register. If the Subject Property is removed, the Grantee will then notify the Grantor that the agreement is null and void. If the damage or destruction that warrants the properties removal from the National Register is deliberately caused by the gross negligence or other actions of the Grantor or successor owner, then the Grantee will initiate requisite legal action to recover, at a minimum, the Federal grant funds applied to the Subject Property which will then be returned to

the U.S. Government.

l. Enforcement. The Grantee shall have the right to prevent and correct violations of the terms of this preservation covenant. If the Grantee, upon inspection of the Subject Property, finds what appears to be a violation, it may exercise its discretion to seek injunctive relief in a court having jurisdiction. Except when an ongoing or imminent violation will irreversibly diminish or impair the cultural, historical and/or architectural importance of the Subject Property, the Grantee shall give the Grantor written notice of the violation and allow thirty (30) calendar days to correct the violation before taking any formal action, including, but not limited to, legal action. If a court, having jurisdiction, determines that a violation exists or has occurred, the Grantee may seek to obtain an injunction to stop the violation, temporarily or permanently. A court may also issue a mandatory injunction requiring the Grantor to restore the Subject Property to a condition that would be consistent with preservation purposes of the grant from the National Park Service. In any case where a court finds that a violation has occurred, the court may require the Subject Property to reimburse the Grantee and the **State** Attorney General for all the State's expenses incurred in stopping, preventing, and/or correcting the violation, including, but not limited, to reasonable attorney's fees. The failure of the Grantee to discover a violation or to take immediate action to correct a violation shall not bar it from doing so at a later time.

m. Effective date; severability. This preservation covenant shall become effective when filed by the Grantor in the Office of the Recorder of **COUNTY** County, **STATE**, with a copy of the recorded instrument provided to the Grantee for its preservation covenant file. If any part of this preservation covenant is held to be illegal by a court, the validity of the remaining parts shall not be affected, and the rights and obligations of the parties shall be construed and enforced as if the agreement does not contain the particular part held to be invalid.

n. Amendments. The parties may by mutual written agreement jointly amend this preservation covenant, provided the amendment shall be consistent with preservation purpose of this preservation covenant and shall not reduce the regulatory controls listed in the conditions of this preservation covenant. Any such amendment shall not be effective unless it is executed in the same manner as this covenant, refers expressly to this covenant, and is filed with the **COUNTY** County Recorder.

o. Signatories Authority. If the Grantor is a corporation or organization, the Grantor agrees to submit concurrent with the execution of this agreement, an authorized signatories certificate in the form of Exhibit C.

This instrument reflects the entire agreement of Grantor and Grantee regarding the subject covenant. Any prior or simultaneous correspondence, understandings, agreements, and representations are null and void upon execution of this agreement, unless set out in this instrument.

In witness whereof, Grantor and Grantee have set their hands under seal on the days and year set forth below.
