**SUBJECT: Rock Springs Municipal Cemetery**

Dear Gina:

Based on our conversations regarding moving from CIMS Desktop to CIMS Cloud, I am able to provide you with the following estimate for work.

**Mapping**

**\$3,200**

While converting your maps to the CIMS Cloud format, we can assign a latitude and longitude to the spaces in your cemetery and align the data with an aerial photo. This will make the latitude/longitude coordinates and the GPS "Where am I" functionality in CIMS Cloud available.

**Maintenance/Hosting**

**\$750/year to \$1,450/year**

By moving to the cloud, your maintenance will go from \$750/year to \$1,450/year. I'll prorate that \$700 difference based on when you make the move to the cloud since you're already current on maintenance through 5/24/2019. You have three licenses of CIMS Desktop, which equates to three logins for CIMS Cloud. That means that three people can be in CIMS Cloud at a time. The annual maintenance fee includes all upgrades to the program, hosting your data on our servers, continuous backup (you won't have to run a backup anymore, as our servers do them for you), and unlimited technical support.

By signing this contract, you agree that this is an addendum to the original CIMS implementation contract. These prices are good for ninety days from the date of this contract.
