Mr. Tim Kaumo, Mayor  
City of Rock Springs  
212 D. Street  
Rock Springs, WY 82901

Dear Mayor Kaumo,

I am writing to notify you that the local school district has been appropriated funding for future school construction project(s) during the 2019 Legislative Session. I encourage you to visit with the school district about the project so that any concerns the city may have in regards to infrastructure items such as water, sewer, utilities, transportation, etc. can be addressed during the planning and design phases of the project.

This collaborative effort will go a long way in providing a facility that can be a source of pride for the community. These capital projects provide not only our children a place for enhanced learning but are often used for community events. They also provide an economic stimulus to the community. To make this a positive experience the school district and State Construction Department are committed to working with you.

Sincerely,
